SECURITY NATIONAL FINANCIAL CORPORATION AND SUBSIDIARIES Notes to Consolidated Financial Statements March 31, 1998 (Unaudited)

1. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 1998, are not necessarily indicative of the results that may be expected for the year ending December 31, 1998. For further information, refer to the consolidated financial statements and footnotes thereto for the year ended December 31, 1997, included in the Company's Annual Report on Form 10-K (file number 0-9341).

2. Comprehensive Income

As of January 1, 1998, the Company adopted Statement 130, Reporting Comprehensive Income. Statement 130 establishes new rules for the reporting and display of comprehensive income and its components; however, the adoption of this Statement had no impact on the Company's net income or stockholders' equity. Statement 130 requires unrealized gains or losses on the Company's available-forsale securities, which prior to adoption were reported separately in stockholders' equity, to be included in other comprehensive income.

During the first quarter of 1998 and 1997, total comprehensive income amounted to \$568,370 and \$232,923, respectively.

Capital Stock

In accordance with SFAS 128, the basic and diluted earnings per share amounts were calculated as follows:

		Three 1998 	Months	Ended	March	31, 1997

There are no dilutive effects on net income for purpose of this calculation. $% \left(1\right) =\left(1\right) \left(1$

Overview

The Company's operations over the last several years generally reflect three trends or events which the Company expects to continue: (i) increased attention to "niche" insurance products, such as the Company's funeral plan policies, annuities, and limited pay accident policies; (ii) emphasis on high margin cemetery and mortuary business; and (iii) capitalizing on the strong economy in the intermountain west by originating and refinancing mortgage loans.

Results of Operations

First Quarter 1998 Compared to First Quarter 1997

Total revenues increased by \$388,000, or 5.2%, to \$7,807,000 for the three months ended March 31, 1998, from \$7,419,000 for the three months ended March 31, 1997. Contributing to this increase in total revenues was an \$85,000 increase in insurance premiums and other considerations, a \$71,000 increase in net investment income and a \$278,000 increase in mortgage fee income. These increases were partially offset by a \$61,000 decrease in net mortuary and cemetery sales.

Insurance premiums and other considerations increased by \$85,000, or 5.8%, to \$1,558,000 for the three months ended March 31, 1998, from \$1,473,000 for the comparable period in 1997. This increase was primarily due to an increase in policies in force from new business.

Net investment income increased by \$71,000, or 4.0%, to \$1,844,000 for the three months ended March 31, 1998, from \$1,773,000 for the comparable period in 1997. This increase was attributable to the Company maintaining smaller short-term investment balances and warehousing more mortgage loans during the first quarter of 1998 as compared to the first quarter of 1997.

Net mortuary and cemetery sales decreased by \$61,000, or 2.4%, to \$2,439,000 for the three months ended March 31, 1998, from \$2,500,000 for the comparable period in 1997. This decrease is primarily related to an increase in sales returns and allowances on pre-need sales. Pre-need and at-need sales before sales return and allowances increased 1% and 5%, respectively, over the prior period.

Mortgage fee income increased by \$278,000, or 17.1%, to \$1,904,000 for the three months ended March 31, 1998, from \$1,626,000 for the comparable period in 1997. This increase was primarily attributable to more loan originations during the first quarter of 1998 from the refinancing of residential loans brought about by lower interest rates.

Total benefits and expenses were \$7,193,000, or 92.1% of total revenues for the three months ended March 31 1998, as compared to \$6,910,000, or 93.1% of total revenues for the three months ended March 31, 1997.

Death benefits, surrenders and other policy benefits and increase in future policy benefits increased by \$27,000, or 1.8%, to \$1,564,000 for the three months ended March 31, 1998, from \$1,537,000 for the comparable period in 1997. This increase was primarily the result of reserve increases due to more policies in force during the first quarter in 1998 as compared to the first quarter of 1997.

Amortization of deferred policy acquisition costs and cost of insurance acquired decreased by \$18,000, or 5.7%, to \$297,000, for the three months ended March 31, 1998, from \$315,000 for the comparable period in 1997. This decrease is in line with the actuarial assumptions.

General and administrative expenses increased by \$428,000, or 10.6%, to \$4,476,000 for the three months ended March 31, 1998, from \$4,048,000 for the comparable period in 1997. This increase in general and administrative expenses primarily resulted from an increase in commissions and other expenses due to more mortgage loan originations having been made by the Company's mortgage subsidiary.

Interest expense decreased by \$93,000, or 33.5%, to \$185,000 for the three months ended March 31, 1998, from \$278,000 for the comparable period in 1997. This decrease was primarily due to the reduction of long-term debt.

Cost of goods and services sold of the mortuaries and cemeteries decreased by \$61,000, or 8.3%, to \$671,000 for the three months ended March 31, 1998, from \$732,000 for the comparable period in 1997. This decrease was consistent with the decrease in net mortuary and cemetery sales.

Liquidity and Capital Resources

The Company's life insurance subsidiary and cemetery and mortuary subsidiaries realize cash flow from premiums, contract payments and sales on personal services rendered for cemetery and mortuary business, from interest and dividends on invested assets, and from the proceeds from the maturity of held-to-maturity investments, or sale of other investments. The mortgage subsidiary realizes cash flow from fees generated by originating and refinancing mortgage loans and interest earned on mortgages sold to investors. The Company considers these sources of cash flow to be adequate to fund future policyholder and cemetery and mortuary liabilities, which generally are long-term, and adequate to pay current policyholder claims, annuity payments, expenses on the issuance of new policies, the maintenance of existing policies, debt service, and operating expenses.

The Company attempts to match the duration of invested assets with its policyholder and cemetery and mortuary liabilities. The Company may sell investments other than those held-to-maturity in the portfolio to help in this timing; however, to date, that has not been necessary. The Company purchases short-term investments on a

temporary basis to meet the expectations of short-term requirements of the Company's products. The Company's investment philosophy is intended to provide a rate of return which will persist during the expected duration of policyholder and cemetery and mortuary liabilities regardless of future interest rate movements.

The Company's investment policy is to invest predominately in fixed maturity securities, mortgage loans, and warehouse mortgage loans on a short-term basis before selling the loans to investors in accordance with the requirements and laws governing the life insurance subsidiary. Bonds owned by the life insurance subsidiary amounted to \$48,938,000 at amortized cost as of March 31, 1998 compared to \$49,697,000 at amortized cost as of December 31, 1997. This represents 64% of the total insurance-related investments as of March 31, 1998 and December 31, 1997. Generally, all bonds owned by the life insurance subsidiary are rated by the National Association of Insurance Commissioners. Under this rating system, there are six categories used for rating bonds. At March 31, 1998, 4.12% (\$2,018,000) and at December 31, 1997, 4.06% (\$2,018,000) of the Company's total investment in bonds were invested in bonds in rating categories three through six, which are considered non-investment grade.

The Company intends to hold its fixed income securities, including high-yield securities, in its portfolio to maturity. Business conditions, however, may develop in the future which may indicate a need for a higher level of liquidity in the investment portfolio. In that event the Company believes it could sell short-term investment grade securities before liquidating high-yielding longer term securities.

The Company is subject to risk based capital guidelines established by statutory regulators requiring minimum capital levels based on the perceived risk of assets, liabilities, disintermediation, and business risk. At March 31, 1998 and December 31, 1997, the life subsidiary exceeded the regulatory criteria.

The Company's total capitalization of stockholders' equity and bank debt and notes payable was \$35,675,000 as of March 31, 1998 as compared to \$34,659,000 as of March 31, 1997. Stockholders' equity as a percent of capitalization increased to 72.9% as of March 31, 1998 from 68.4% as of March 31, 1997 and as a percent of assets increased to 20.3% from 19.2%, respectively.

Lapse rates measure the amount of insurance terminated during a particular period. The Company's lapse rate for life insurance in 1997 was 11.7% as compared to a rate of 12.0% for 1996. The 1998 lapse rate is approximately the same as 1997.

At March 31, 1998, \$12,052,000 of the Company's consolidated stockholders' equity represents the statutory stockholders' equity of the Company's life insurance subsidiary. The life insurance subsidiary cannot pay a dividend to its parent company without the approval of insurance regulatory authorities.

Acquisitions

- -----

In February 1997, the Company purchased all of the outstanding shares of common stock of Crystal Rose Funeral Home, Inc. for a total consideration of \$382,000, which included a note to the former owner in the amount of \$297,000.

On April 27, 1998, the Company entered into an Acquisition Agreement (the "Agreement") with Consolidare Enterprises, Inc., a Florida corporation, ("Consolidare"), and certain shareholders of Consolidare for the purchase of all of the outstanding shares of

common stock of Consolidare. Consolidare owns approximately 57.4% of the outstanding shares of common stock of Southern Security Life Insurance Company, a Florida corporation ("SSLIC"), and all of the outstanding shares of stock of Insuradyne Corp., a Florida corporation ("Insuradyne"). SSLIC is a Florida domiciled insurance company with total assets of approximately \$82.1 million. SSLIC is currently licensed to transact business in 14 states. SSLIC's total revenues for the year ended December 31, 1997 were \$11,695,756. SSLIC had a net income of \$195,000 for fiscal 1997.

As consideration for the purchase of the shares of Consolidare, the Company will pay to the holders of Consolidare common stock an aggregate of \$11,356,400 plus an amount equal to the current assets of Consolidare as of the closing date. For purposes of the purchase consideration, current assets of Consolidare are defined as cash and cash equivalents (with interest earned through the closing date) and accrued commission due to Insuradyne from SSLIC. To pay the purchase consideration, the Company intends to obtain approximately \$6,500,000 from bank financing, with the balance of approximately \$4,856,400 to be obtained from funds currently held by the Company. In addition to the purchase consideration, the Company is required to cause SSLIC to pay, on the closing date, \$1,050,000 to George Pihakis, who is currently President and Chief Executive Officer of SSLIC, as a lump sum settlement of the executive compensation agreement between SSLIC and Mr. Pihakis.

The closing of the Agreement is contingent upon regulatory approvals, including the approval of the Florida Department of Insurance and the Utah Insurance Department, compliance or waiver of compliance under the Hart-Scott-Hodino Antitrust Improvements Act of 1976, approval of the Agreement by the affirmative vote of a majority of the Consolidare shareholders, with no Consolidare shareholders exercising their rights as dissenting shareholders under Section 607.1320 of the Florida statutes, as well as the satisfactory performance of certain covenants and the accuracy of the parties' respective representations and warranties at closing. Following the closing of the Agreement, it is the intention of the Company to merge a newly formed wholly-owned subsidiary of Security National Life Insurance Company into Consolidare, with the result that Security National Life Insurance Company will then own 57.4% of the outstanding shares of common stock of SSLIC. The Company further intends to continue to operate SSLIC as a Florida domiciled insurance company.

Year 2000 Issues

- -----

The Company is aware of the issues associated with the programming code in existing computer systems as the millennium ("Year 2000") approaches. The Year 2000 problem is pervasive and complex as virtually every computer operation will be affected in some way by the rollover of the two digit year value to 00. The issue is whether computer systems will properly recognize data sensitive information when the year changes to 2000. Systems that do not properly recognize such information could generate erroneous data or cause a system to fail.

The Company's systems, which are presently in use, have been purchased from third party vendors. The Company is in the process of converting to the latest versions for these systems which are Year 2000 compliant ("Version 2000"). The Company plans to have the Version 2000 installed and in use for its life insurance subsidiary in the third quarter of 1998 and the Version 2000 installed and in use for its cemetery and mortuary subsidiaries in the first quarter of 1999. The mortgage subsidiary is currently using a Version 2000 system. The total cost for the Version 2000 systems is approximately \$50,000, of which \$40,000 has been spent as of March 31, 1998.

Once installed the Company believes that the Year 2000 problem will not pose significiant operational problems for the Company. However, if such conversions are not completed timely, the Year 2000 problem may have a material impact on the operations of the Company. Also, the Company is in the process of confirming with its major vendors and suppliers to determine their compliance to the Year 2000.
